Announcing an exciting new program that seeks to create. . . 'a world where everyone is musical'

You are enthusiastically invited to attend a free information session to learn more about Play-a-Story, a piano program which, while appropriate for everyone, is especially exciting for those with special needs.

Laurie Richards, mom of Bryan (who has Down syndrome) teacher of the breakthrough Simply Music piano method, and owner of Keys to Harmony, LLC, will be presenting this session with the hopes of bringing musical self-expression into the lives of our special friends.

Laurie is training her Keys to Harmony teachers to honor everyone for who they are inside, to look at all the potential and not what they interpret as limitations.

Please don't miss this opportunity!

Play-a-Story

Play-a-Story is a musical journey in which teachers and students travel through a storybook world. It uses the piano as its mode of travel, creating sounds, melodies, harmonies and rhythms to express the story... literally, students create their own musical soundtrack. Using the piano, students learn to interpret mood, color and nuance as the story unfolds. Play-a-Story teaches this by providing a foundational, systematic and creative experience that harnesses children's intuitive, musical appreciation and interpretation.
